PROGRAMME OVERVIEW

Through the **MBA in Logistics & Supply Chain Management** programme, students will understand Business Logistics from the perspective of the Integrated Supply Chain Process. Logistics refers to all activities that move product and information to and from members of a supply chain. The supply chain provides the framework for bringing products from businesses to suppliers to customers efficiently. The MBA Logistics & Supply Chain Management programme aims to train and develop future leaders and managers in the fast-growing Logistics & Supply chain sector. A highly integrated programme, you would acquire knowledge and understanding of multiple facets of supply chain business including purchasing, materials management, supply-chain management, transportation, customs regulations, foreign exchange, international trade and information technology among various other aspects.

PROGRAMME BENEFITS

- To enable the advanced study of organizations, their management and the changing external context in which they operate.
- Equip individuals for and/or development of a career in business and management by developing skills at a professional or equivalent level to assume senior managerial and leadership positions in business.
